

# OUT FOR THE PLUMS

The Men Who Want to Serve City and County.

## GOSSIP OF THE CANDIDATES

And the Present Prospects for the Election April 3—Men Who Will Be Pushed for Office.

There are numerous bees buzzing about the town. Not the kind that sip the sweets of midsummer but the kind that make the honey, the variety that infests the headgear of the ambitious politician periodically, spring and fall. The war approach of March has increased the waxing and the friends of candidates are now making their names and aspirations common property.

The city democrats profess to be hopeful. Their hopes are based on the fact that some of their state and county candidates obtained a majority of 200 votes in the city last fall, by means of fusion and from other causes. The more complicated situation of the present time, however, causes the wiser of them to "view with alarm" the outlook. The republicans feel that the present administration can well stand on its merits and are ready for the people's verdict.

The nomination of circuit judges to be made by the republicans on Friday and the democrats on Saturday is, of course, the most talked of at present. The republican contest has narrowed down to four candidates, Judge George, Moses Taggart, Lord E. Knapp and Rouben Hatch. Judge George's nomination is practically a foregone conclusion, notwithstanding there are heard whispering among radicals of a certain wing that he would be opposed for having favored non-partisan nominations. It is believed that Mr. Taggart will get more delegates' votes than either Mr. Knapp or Judge Hatch, but this is one of the uncertainties of political conventions. The non-partisan idea is now entirely discredited by republicans.

**Not Many Candidates.**

The democrats are hard up for candidates for the circuit bench. There are several well-to-do democratic lawyers who would not accept, especially with the chances of election so slim. It is now more than possible that the democrats will nominate the two present judges on Saturday and carry out their non-partisan theory in order to save Judge Adams. A possible combination may be the nomination of Judges Adair and Burlingame for the circuit and the nomination of Frank Kuts, the ex-prosecuting attorney, for superior court judge. Kuts is now affiliating with the people's party, having gone as a delegate to their state convention, etc., and he believes that a fusion on Kuts could be effected. The democrats think that Judge Burlingame would run better for circuit than for superior court judge, on account of the antagonism of the law-breakers who have suffered at his hands. Few other democrats have been mentioned for the judgeships.

An issue which will be raised in Friday's convention in reference to the school commission is whether or not the granting of permits to those teachers who have not secured certificates. It is expected that the commission nominating will pledge himself against the practice, which is not now so common as formerly. A. H. Smith is in the lead for the nomination.

**For City Offices.**

The state tickets on all sides have their candidates pretty well fixed upon, in their minds, for the city offices. Mayor Stuart was asked yesterday by a reporter for The Herald how he felt about the nomination for mayor since he had himself been mentioned. He said it had occurred to him and still was his wish to serve but he had never since accepting the nomination; while he appreciated the honor of the office highly, he felt that he ought not to spend the time it required, and he sincerely hoped he might be selected to manage the term. No other republican candidate has yet been mentioned.

The democrats talk about putting up ex-County Clerk Harvey, Isaac M. Tamm, Maurice Houseman and Joseph Houseman.

William A. Shinkman, the present city clerk, is said by his friends to have a walk away for both re-nomination and election. His title to the office will be contested strongly, however, by one of the popular young republicans, Rudolph Doernick, is being pushed for the place, and Cornelius A. Benjamin, son of the pensive Benjamin, might perhaps have the nomination if he wished it. Frank H. Warren, of the tax department has been talked of, but declines.

Nobody could take the nomination for treasurer from March H. Sorrick, and this he no one aspires to. Mr. Sorrick modestly looks forward to being elected on his record made during his present half term. Among his probable opponents are mentioned John L. Curtis, ex-Coroner Hays and Andrew Fyfe. Mr. Fyfe is a reported aspirant for R. A. Maynard's berth in the government building, but reports as to whether he has a "chance" are conflicting. In the event of the election of another judge of the superior court, the present clerk may remain a year. In the event of a tax department, why, the office vanishes.

**It's a Good Office.**

James Vandenberg wants to be city comptroller again. He said yesterday that should forget the nomination he believed he would be elected.

Leo Ciro, who ran for a seat on the board of review last spring, also wants the nomination, and professes confidence that he will get it. The republicans have an excellent candidate in the person of Deputy Treasurer Rosbach, who expects the nomination.

There was a small army of democrats who want to be city marshal. Marshal Henry Jones, the last, closely followed by ex-Marshal Wilson, ex-Assistant Marshal Orison, L. L. Lawrence, Thomas Nestor and several lesser lights. The republican candidates will probably

be James L. Lewis, now with Foster, Stevens & Co.

For members of the board of review for three years Frank H. Hill, whose term expires this spring, is the democratic candidate. As yet no republican has come to the front for the office.

## MUST MIND THE ORDINANCE.

After the New Market Place is Opened for Business.

The contract for the lease of the new hay market has not yet been executed, and farmers who have wood and hay to sell are so numerous that the old market is not large enough for them. The city marshal is obliged to have a man there every day to keep the farmers from standing in the streets. The contract for the lease of the new market will probably be executed next week and after that all persons standing in the streets with loads of hay or wood will be promptly arrested and prosecuted.

## Paying for Improvements.

The council had twenty-one public improvement bills before it on Monday night, the most that has ever been considered by any council of the city. It will consider about twenty next Monday. The city treasurer's office is so crowded with the work of collecting the taxes for special improvements that an extra clerk is employed. The amount to be collected for the Hall and Buchanan street sewers and its tributaries recently put in amounts alone to \$25,000, and embraces 15,000 descriptions of property. The smaller adjacent sewers, all of which are included in the improvement, are the Fifth and Madison avenue, the Highland avenue, Central avenue and Green street sewer and the Terrace avenue sewer.

## Must Deliver the Plant.

W. R. Adams, receiver of the Kalamazoo City & County Street Railway Company, filed a statement yesterday showing that he has received \$46,000.17 since he was appointed receiver of the company, and he has expended \$46,084.61, leaving \$51.56 cash on hand. The plant has now been purchased by the General Electric Company, and in the case of the Knickerbocker Trust Company vs. the Railway Company in the United States court yesterday, an order was granted directing the master in chancery to deed the premises to the new company. The property was sold last fall under a mortgage for \$40,000 by order of the court.

## Great Promise for Wood Manufacturers.

It is only quite recently that manufacturers of furniture, wagons and wood work generally have become aware of the wonderful promise offered by North Galveston, Tex. Directly tributary to this young city, and not many miles distant, in eastern Texas are over 40,000 acres of timber, which comprises all of the high grade hard and soft woods. Many people are coming in and are now doing business, but there is room for a great many more. With rail and water facilities for shipping, and markets in all directions, there should not be any hesitation about the outcome of manufacturing ventures. For further particulars call on or write the local agent. The address of the home office is North Galveston Association, Box 903, Minneapolis, Minn.

**CLOSING OUT** business. \$2.50 and \$2 Ladies' and Misses' Kid Shoes for \$1 all this week.

Just the Thing.

This is an expression the traveling public generally use when they find something that is exactly what they want. The expression applies directly to the Worcester Central line, which is now admitted by all to be "The Route" from Chicago to St. Paul, Minneapolis, Ashland, Duluth and all points in the northwest. Their double daily train

service and fine equipment offers inducements which cannot be surpassed.

This is the only line running both through Pullman First Class and Tourist Sleepers from Chicago to Pacific Coast Ports without change.

A hale old man, Mr. James Wilson, of Allons Springs, Ill., who is over 60 years of age, says: "I have in my time tried a great many medicines, some of excellent quality, but never before did I find any that would so completely do all that is claimed for it as Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is truly a wonderful medicine." For sale by F. J. Wurzburg, Druggist, 58 Monroe street.

## The Result of Merit.

When anything stands a test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady increasing sale. Few, if any, medicines have met with such continued success and popularity as has marked the introduction and progress of Chamberlain's Pills, which, after a trial of over fifty years, are conceded to be the safest and most effective purgative and blood purifier introduced to the public.

That this is the result of merit, and that Chamberlain's Pills actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

CHAMBERLAIN'S PILLS are sold in every drug and medicine store, either plain or sugar coated.

Joseph V. Dory of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to do him any good; but finally he got hold of one that speedily cured him. He was much pleased with it and felt sure that others similarly afflicted would like to know what the remedy was that cured him. He states for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by F. J. Wurzburg, druggist, No. 58 Monroe street.

## Physicians Outdone.

My wife has been suffering with female trouble of the severest kind for over three years. I have paid \$25 during the last three months and she had no relief. She had doctor's continually with the best of physicians.

I bought three bottles each of Dullman's Great German Female Uterine Tonic and Dullman's Great German Blood, Liver, Stomach and Kidney Cure and can say today that she is entirely cured.

# THE WOMAN'S FRIEND!

Remain to Test the Free Treatment of the

Buffalo Medical Council at Sweet's Hotel.

All Those Who Desire to Receive the Benefit of Our Very Generous Offer Must Call

BEFORE 4 P. M., TUESDAY, FEB. 28

And They Will be Treated Free Until Cured.

For the purpose of extending their already wide-world popularity, and with a desire to consent to the many earnest requests made from time to time by the friends and admirers of this progressive system, one of our consulting physicians will pay a professional visit to Grand Rapids, where at his private residence (especially arranged for the purpose) he will give to all those holding appointments as well as to all others who are desirous of receiving the benefit of our system, a personal examination, and thereby all the advantages of this new system, which has worked such marvellous cures in Buffalo and surrounding country. Although the time and expense to them to come to Buffalo will be so small, yet they feel the number they will treat will be so large, the cures they will make will be so sure, the good they will do will be so large a field, that the advertisement will be double what could be obtained with the expenditure of \$10,000 in any other way. They also hope to bring to the notice of all invalids their advanced system, as well as their special system of practice. All they ask in return is that every patient so treated will appoint themselves a committee of one to state to all their friends the result obtained in their individual cases by the German system. So the rich and poor may come daily from 10 a. m. to 1, and 2 to 4 p. m. and 7 to 9 p. m., for the entire time as above.

They treat all female troubles by the German method, which does away with all scientific examinations, rinses, pessaries and local treatment. They also desire to impress upon all men who are suffering from the error of youth, that they are the sole importers of the most celebrated female remedy so well and favorably known in the old world as the ANTI-ACIDIC BALDWIN METHOD. They will guarantee an absolute cure in all cases taken. All desiring to test the system will have such an opportunity for one month free of charge.

They earnestly invite you to come, see and examine for yourself their institution, all appliances, appliances and success in curing the chronic ailments of suffering humanity. Their patients are numbered from all parts of the world, and so remarkable has been their success that we have in wonder at the superior qualifications of the physician who can FOHM STRIKELY SCIENTIFIC KNOWLEDGE OF THE STRUCTURE OF MAN, TELL DISKASE AT A GLANCE, WITHOUT ASKING ANY QUESTIONS, LOOKING AT THE TONGUE OR FEELING THE PULSE.

No examination is necessary from the patient, no previous knowledge of the case. Every ache, pain and disagreeable feeling pointed out and described, better than the patients can themselves. He locates, describes, understands and explains disease at a glance, it studies its history, progress and termination. Teaching in his consultation the patient's inherent power over all their weaknesses and deficiencies which lead to all the various diseases incident to their nature, gives the proper remedy and course of treatment necessary to a perfect and permanent cure. No person should doctor his own throat or take any more medicine before consulting him. Not only will they be surprised at his wonderful knowledge of disease, his plain, concise explanation of every cause and effect, but at the rapidity with which he relieves and cures the most obstinate diseases by his very progressive system. The only system by the aid of which, coupled with his knowledge of the structure of man, and his experience with the peculiarities of disease and its effect upon the functions of the body, he draws inference to the patient whose life is endangered, the real cause of the trouble and points to an absolute relief and cure.

## HUNDREDS CURED ANNUALLY.

Following is a brief synopsis of cases which have been successfully treated by the Buffalo Medical Council during the past year, commencing January 1, 1891, and ending December 31, 1891. This list does not include applicants for treatment who were pronounced by the council to be incurable, but a complete record of their treatment is to be at the CURE ALLY PERFORMED, guaranteed absolutely and implicitly correct in every particular.
